EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Gary Jacobs on May 9, 2006.

The application has been amended as follows:

Replace claim 1 with:

1. (Currently Amended) An optical waveguide comprising:
a slab-type optical waveguide layer; and
a plurality of chips which include either an optical input port for inputting an optical signal from the slab-type optical waveguide layer or an optical output port for outputting an optical signal to the slab-type optical waveguide layer, wherein each said optical input port receives the optical signal, output by each said optical output port, from the slab-type optical waveguide layer in accordance with a timing signal inputted using an electrical connection between the plurality of chips,
wherein the optical signal output by each said optical output port comprises a packet signal train formed of a finite pulse train, and wherein the timing signal is individually sent as an instruction signal used to select adoption or rejection of the packet signal train; and

Art Unit: 2874

wherein the timing signal comprises an electrical signal formed for every packet signal train.

In claim 8, line 5, delete "control"

In claim 13, line 5, delete "control"

In claim 14, line 5, delete "control"

The following is an examiner's statement of reasons for allowance: there is no prior art made of record that teaches or reasonably suggests the claimed apparatus having all the specific elements with the specific combination including a slab-type optical waveguide and the timing signal comprising an electrical signal for every packet signal train to select adoption or rejection of the packet signal train as set forth in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Juliana K. Kang whose telephone number is (571) 272-2348. The examiner can normally be reached on Monday through Thursday 8:00 AM-2:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rod Bovernick can be reached on (571) 272-2344. The
